Subject: Headquarters Bldg. - Incinerator  
for Disposal of Non-Pulpable  
Classified Waste Materials

Gentlemen:

Attached herewith is a catalog of the "Consumat" incinerator manufactured by the Waste Combustion Corporation of Richmond, Virginia. Also enclosed is a copy of the Compliance test dated 15 October, 1971 for the model C-125 P incinerator.

The local representative for these products is: Lee Wiles, Air Pollution Control Products, Inc., P.O. Box 7066, Alexandria, Virginia 22307 (Phone (703) 768-0316).

Capacity data for classified waste disposal and cost information for the three units of primary interest are as follows:

Model No.	Capacity (Lb./Hr.)	Cost (F.O.B. Fact.)
C-75	325	\$ 5,475
C-120	500	10,100
C-125	625	16,500

The model C-125 unit requires a mechanical loader which costs \$6600. Some optional materials such as more elaborate safety controls are available at an additional cost.

The incinerators are included in the Federal Supply Catalog and the costs to the Government stated therein are approximately 15 percent less than those quoted above.

If we can be of further service in this matter, please call on us.

Very truly yours,

HENNINGSON, DURHAM & RICHARDSON

James Shea, P.E.
